

## Bexhill Heritage

Conservation, protection and improvement  
of the Bexhill-on-Sea built environment.

### **Bexhill Heritage - Environmental and sustainability policy**

Bexhill Heritage is committed to sustainable development (meeting the needs of the present without compromising the ability of future generations to meet their own needs) as a guiding principle within our work.

Concern for the environment is an integral and fundamental part of this commitment. Our aim is to reduce the impact on the environment from our operations.

We will assess the environmental impacts of our operations and the materials we use in our renovation projects.

We will:

- promote responsibility for the environment within the charity
- reduce the use of energy, water and other resources;
- minimise waste by reduction, re-use and recycling methods;
- comply with all relevant environmental legislation / regulations;
- carefully balance the durability and longevity of a product such as paint against the environmental impact of its first use
- ensure that our policies and operations are developed in a way that is complimentary to this policy;
- not prioritise funding needs ahead of sustainability requirements;
- identify and provide appropriate training, advice and information for volunteers

**Policy agreed: January 2025**

**Next review date: January 2028**
